GETTING STARTED

PROGRAM DETAILS

- 30 units requirement
- 5 core MatE courses*
- 3 elective courses (9 units total)
- 3 research project courses
- Graduate classes are in the evenings for the convenience of working students
- Current SJSU students may take ChE 200 to get a head start on the program

*Students without a B.S. in MatE need several additional UG courses

See details at https://www.sjsu.edu/cme/programs/materials-engineering-ms/

APPLICATION DETAILS

PREREQUISITES

- B.S. degree in Materials Engineering
  Or closely related degree in Engineering
  (Chemical, Electrical, Mechanical, Biomedical)
  Or Science (Chemistry, Physics)
- GPA of 2.7 or above
  In last 60 units of B.S. Degree
- TOEFL*
  *For international applicants

AVERAGE PROGRAM LENGTH

2 Years, Full-Time

APPLICATION DEADLINES

Interested in applying, see steps here: https://www.sjsu.edu/admissions/graduate/want-to-apply/index.php

Domestic Applicants
  December 1, 2023 for Spring 2024

International Applicants
  October 1, 2023 for Spring 2024

WORK WITH FACULTY ON RESEARCH IN

- Batteries
- Additive Manufacturing
- Biomedical Devices
- Nanocomposites
- Molecular Simulations
- Biomaterials

RECENT GRADUATES RECRUITED BY

- Lam Research
- Stryker
- RheoSense
- NASA
- Intel
- Informatica
- IBM
- Lockheed Martin
- Apple
