San José State University
Computer Science Department
CS151, Object Oriented Design and Programming, 01, Spring 2022

Course and Contact Information

Instructor: Yulia Newton, Ph.D.
Office Location: DH 282
Telephone: (831) 588-2686
Email: yulia.newton@sjsu.edu, yulia.newton@gmail.com, or Canvas message
Office Hours: Mon/Wed 4:45 – 5:45 (DH 282). Also by appointment via zoom, flexible time, upon request. I am available to do one-on-one or group meetings.
Class Days/Time: Mon/Wed 6:00 - 7:15 PM
Classroom: Washington Square Hall 207
Prerequisites: MATH 42 (Discrete Mathematics), CS 46B (Introduction to Data Structures), and CS 49J (Programming in Java) or equivalent knowledge of Java (with a grade of "C-" or better in each of the classes)

COVID-19 safety measures for in-person courses

All students registered for a College of Science (CoS) class with an in-person component must view the CoS COVID-19 Training slides (https://drive.google.com/drive/folders/1Vmp39U9-CNpbwRobtZsGIzPTgRwV_Nh6) and the SJSU Phased Adapt Plan website (https://www.sjsu.edu/healthadvisories/sjsu-adapt/phases/index.php) and acknowledge reading them according to their instructor’s directions. By working together to follow these county and SJSU safety practices, we can keep our college safer. Students who do not follow COVID-19 Safety practice(s) outlined in the training, the SJSU Phased Adapt Plan, or instructions from their instructors, TAs or CoS Safety Staff may be dismissed from CoS buildings, facilities or field sites. Please review this training as needed throughout the semester, as updates will be implemented as changes occur (and posted to the same links).

Course Format

Technology Intensive, Online Course

Faculty Web Page and MYSJSU Messaging: We will use Canvas for most class related materials. Any specific/personal questions (grade related or personal situations) must be communicated via email or canvas message.

Course Description

Object Oriented Design, CS151, Section 01 Spring 2022
programming. Frameworks and components. Multithreading. Required team-based programming assignment. Prerequisite: MATH 42, CS 46B, and CS 49J (or equivalent knowledge of Java) (with a grade of "C-" or better in each); Computer Science, Applied and Computational Math or Software Engineering majors only; or instructor consent.

Course Goals
Understand fundamentals of object-oriented design and programming in Java; be aware of various methodologies and principles in software design and development; have ability to design, implement, and document an application using best practices.

Course Learning Outcomes (CLO)
Upon successful completion of this course, students will be able to:

1. OO Design and principles:
   a. Introduce a simplified OO analysis and design methodology
   b. Present the concepts of design patterns and choose the appropriate design patterns to follow to meet your application goals
   c. Introduce core UML concepts
   d. Present the concept of a software framework
   e. Properly document the software system

2. Java Language:
   a. Make students proficient in the use and creation of interfaces and inheritance hierarchies
   b. Make students proficient in the Java type system
   c. Introduce threads and thread safety
   d. Introduce Java generics

3. GUI Programming:
   a. Introduce GUI toolkits, including basic widgets, the event handling mechanism, advanced graphics programming and animation.

4. Java reflection:
   a. Introduce the basic concepts of reflection programming.
   b. Introduce methods and approaches utilized in Java reflection programming.

5. IO, web, and networking programming:
   a. Introduce methods and approaches available for IO, web, and network programming.

Optional Texts/Readings (no required text)
This class does not require a mandatory textbook. Google is your friend! Always refer to the Java API specification documentation.

Optional textbook (I will not be teaching by it)
Object Oriented Design and Patterns
Object Oriented Design, CS151, Section 01 Spring 2022
Other optional readings

Design Patterns in Java | Edition: 2
Author: Steven John Metsker, William C. Wake
ISBN: 9780321333025
Publication Date: 04/21/2006
Publisher: Addison-Wesley.

Effective Java (Java Series) | Edition: 2
Author: Joshua Bloch
ISBN: 9780321356680
Publication Date: 05/18/2008
Publisher: Addison-Wesley

Java Concurrency in Practice
Author: Brian Goetz, Tim Peierls, Joshua Bloch
ISBN: 9780321349606
Publication Date: 05/23/2006
Publisher: Addison-Wesley

Other technology requirements / equipment / material

Java 8 or higher. IDE is not required but could be helpful - Eclipse or Netbeans. You can choose to use any text editor to write your programs. IDEs simply makes writing your programs easier as IDEs usually have additional features that save time and programming effort (e.g. automatic documentation, automatically prepopulating getters and setters, etc.).

Course Requirements and Assignments

SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week), including preparing for class, participating in course activities, completing assignments, and so on. More details about student workload can be found in University Policy S12-3 at [http://www.sjsu.edu/senate/docs/S12-3.pdf](http://www.sjsu.edu/senate/docs/S12-3.pdf).

- Each student is expected to be present, punctual, and prepared at every scheduled class and lab session. It is assumed that the students already have basic knowledge of digital Boolean logic and fundamentals of programming.

- Attendance is NOT optional though it does not form any part of your grade. Individual participation is also required. There will be no make-ups for missed midterm or assignments, unless any special arrangements is made with the instructor beforehand. The student is responsible for any material he/she may have missed.

- There will be 6-7 homework assignments (some of which might be team based), one final project, one midterm and final exam. All homework should be submitted through Canvas. No scanned copy of handwritten solution is allowed.
Final Examination or Evaluation

There is an online Final Exam for this course. Please check the university Final Exam schedule for the exact date and time of the final exam (http://info.sjsu.edu/static/catalog/final-exam-schedule-spring.html).

Grading Information

Grading calculation will be based on the following:
• Assignments/Problem Sets (40%)
• Quizzes (20%)
• Midterm exam (20%)
• Final Examination (20%)

Incomplete work:
Points will be deducted for incomplete question responses and solutions that are partially functional. Consult individual assignment for details of point allocation for each problem.

Extra credit:
Extra credit options might be available in this class. All and any possible extra credit options will be announced in class and posted in canvas system if and when they become available.

Homework assignment due date:
Submission is allowed till 11:59 pm on due date.

Late assignments:
10% of the assignment grade will be subtracted for each 1 week of late submission. Even one day late will count as the whole 1 week late. 8 days late submission will count as 2 weeks late, and so on.

Makeup Exams:
You must submit only your own work on exams. Makeup exams will only be given in cases of illness (documented by a doctor) or in cases of documentable, extreme emergency.

Grading scale:

<table>
<thead>
<tr>
<th>Point % Range</th>
<th>Letter Grade</th>
<th>Point % Range</th>
<th>Letter Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>97.0 - 100</td>
<td>A+</td>
<td>72.0 - 76.99</td>
<td>C</td>
</tr>
<tr>
<td>93.0 - 96.99</td>
<td>A</td>
<td>70.0 - 71.99</td>
<td>C-</td>
</tr>
<tr>
<td>90.0 - 92.99</td>
<td>A-</td>
<td>67.0 - 69.99</td>
<td>D+</td>
</tr>
<tr>
<td>87.0 - 89.99</td>
<td>B+</td>
<td>62.0 - 66.99</td>
<td>D</td>
</tr>
<tr>
<td>82.0 - 86.99</td>
<td>B</td>
<td>60.0 - 61.99</td>
<td>D-</td>
</tr>
</tbody>
</table>
Note that “All students have the right, within a reasonable time, to know their academic scores, to review their grade-dependent work, and to be provided with explanations for the determination of their course grades.” See University Policy F13-1 at http://www.sjsu.edu/senate/docs/F13-1.pdf for more details.

Classroom Protocol (aka how to succeed in this class)

1. Attend all sessions. From past semesters, data shows that there is a positive correlation between attendance and your overall grade.
2. Come to class on time. Students entering the classroom late disrupt the lecture and / or the students already in class who may be engaged in lab or discussion.
3. A laptop/tablet is required in this class. Bring your device to lectures in order to be able to participate in in-class quizzes and activities.
4. If you miss a lecture you are still responsible for any material discussed or assignments given. A large portion of each class will be used for hands-on lab / discussion. All students are expected to participate in class activities. Students who are often absent will find themselves at a disadvantage during the tests.
5. No audio / video recording or photography in the classroom without prior permission of instructor. Instructor may provide review videos and/or flipped classroom.
6. No personal discussion or cell phone activity during class time. Please set the cell phone on silent/vibrate mode.
7. Email to be sent to the instructor's SJSU email ID (yulia.newton@gmail.edu or yulia.newton@sjsu.edu) only. I check email periodically during the day but much less during weekends. Please do not expect quick turnaround time during weekends.
8. Start on your homework early and stay on top of them. Some assignments take way more time than you expect. Don’t let your initial impression fool you.
9. Start forming study/project groups NOW. It makes it easier to work with the group for the final project. Your project partners are highly important to your success so choose them wisely.
10. Be prepared to learn A LOT. Some of this may require you to self-study certain topics. I will guide you through this journey but the onus of getting the best of this class lies on you.
11. If you are stuck or don’t understand something, ASK. Come to office hours. If office hours don’t work for you please email, ask on piazza, ask me right after class. I cannot help you if you don’t ask for it.

Have fun learning!

University Policies

Per University Policy S16-9 (http://www.sjsu.edu/senate/docs/S16-9.pdf), relevant information to all courses, such as academic integrity, accommodations, dropping and adding, consent for recording of class, etc. is available on Office of Graduate and Undergraduate Programs’ Syllabus Information web page at http://www.sjsu.edu/gup/syllabusinfo/”.

Important dates

- January 26 – first day of instructions
- February 7 – last day to drop a class without W grade
- February 8 – late drop petition required
- February 14 – last day to add courses via MySJSU; last day to submit audit/CR-NC option request
- March 23 – midterm exam online (no class meeting)
- March 28 - April 1 – Spring break (no class meetings)
- May 16 – last day of instructions (the last lecture for this class is on May 16)
- May 23 – Final exam online (no in-person meeting)
