Course Information

Diversity Statement

This course is grounded in the idea that the human experience is defined by an intersectional and positional understanding of existence. Intersectional in that every individual is comprised on multiple, intersecting identities. Positional in that each one of these identities creates the opportunity for both privilege and oppression within society. The ethical root of this praxis within this course begins with critical race theory (CRT) and the idea that education in the United States is built upon white supremacist and racist constructs. First, within the institutional barriers to access that are the legacy of colonialism and racial/ethnic segregation. Second, within the epistemological racism rooted in colonial and racist ideologies of eurocentrism, white-supremacy, xenophobia, and other marginalizing behavior like sexism, misogyny, homophobia, transphobia to name but a few. This ethical alignment is a dedication to the openness of the educator-learner ecology—an awareness of the unique, situated experience of every individual that is involved. This pedagogical lens demands an active anti-racist pedagogy, which vigilantly seeks to dismantle barriers to access and other remanent of institutional and epistemological racism.

Course Description

1. Students will investigate two questions: 1) What is anti-racist about writing? 2) How does an anti-racist academic identity support academic writing and research?
2. Students work to develop an understanding of their emerging academic identity through writing anchor concepts and research threshold concepts.
3. Students will begin with an intersectional and positional exploration of their experiences with education and literacy, writing, and research.
4. Students will then research and develop a scholarly review of literature on a topic based on personal inquiry.
5. Students will undertake a final transmodal assignment in the development of the Digital short based on their writing and research for the term.

Course Description and Requisites

English 1A is an introductory course that prepares students to join scholarly conversations across the university. Students develop reading skills, rhetorical sophistication, and writing styles that give form and coherence to complex ideas for various audiences, using a variety of genres. GE Area: A2

Prerequisite: Completion of Reflection on College Writing

Letter Graded

* Classroom Protocols

ENGL 1A Course Content

Diversity: SJSU is a diverse campus. As such, our course is designed to include an emphasis on a diverse range of voices and viewpoints. We will engage in integrated reading and writing assignments to construct our own arguments on complex issues that generate meaningful public discussions.

Writing: Writing is at the heart of our class. Our exploration of writing will allow us to prepare ourselves and each other for academic and real-world writing scenarios. Assignments give students repeated practice in all phases of the writing process: prewriting, organizing, writing, revising, and editing. Our class requires a minimum of 8000 words, at least 4000 of which must be in revised final draft form. More specific descriptions and instructions will be distributed for all major assignments in class.

Reading: There will be a substantial amount of reading for our class, some of which will come from texts I select (listed below) and some of which will be from sources you locate.

Final Experience: We will compile a portfolio at the end of the semester that includes selected examples of your writing produced for our class, as well as materials from your RCW Canvas course. We will talk more about the portfolio later in the semester.

Time Commitment

Success in ENGL 1A is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities, including but not limited to internships, labs, and clinical practica. Other course structures will have equivalent workload expectations as described in the syllabus.

Final Examination or Evaluation

In ENGL 1A, our learning culminates in a digital Reflection and Portfolio Assignment. In this assignment, we will gather samples of our writing that demonstrate our learning; we will write a reflection essay that explains what we have learned, how we learned it, and how we will use it in future learning; and we will submit our portfolio for consideration to other people in the first-year writing program. This is our chance to identify and articulate what we've learned and what we'll take forward with us into future learning/writing experiences.

Program Policies

First-Year Writing policies are listed at the following website: <https://www.sjsu.edu/english/frosh/program-policies.php> (<https://www.sjsu.edu/english/frosh/program-policies.php>)

Academic Dishonesty and Plagiarism

For this course, the use of ChatGPT sourced content will be considered an act of academic dishonesty.

The Norton Field Guide describes plagiarism as "using other people's words and ideas without acknowledgment" (The Norton Field Guide 491). Specifically, plagiarism occurs when "(1) using another writer's words or ideas without acknowledging the source, (2) using another's writer's exact words without

quotation marks, and (3) paraphrasing or summarizing someone else’s ideas using language or sentence structures that are too close to theirs” (The Norton Field Guide 495).

Right to Remove

If any student becomes a threat or impediment to the health, safety, and educational growth of the class, a fellow classmate, or the instructor—the instructor, the program and the department reserve the right to remove the student from the course. Furthermore, the issue will be documented and taken to the university for further review.

Grading Scale

A letter grade system of A to F will be used, including pluses and minuses. Formal writing assignments will be evaluated by your professor; final grades will be calculated using this scale..

Letter Grade	Points
A 94-100	C+ 77-79
A- 90-93	C 70-76

This draft may be in the form of an Outline or Rough Draft. We will speak of both of these stages during Module 1.

- You must have an Outline/Rough Draft the day of the Peer Review. You also must complete 2 x 250 word responses to 2 peers projects
- In addition to feedback from 2 peers, if you submit the rough stage (Outline/Rough Draft) of the project, I will provide direct feedback.
- If you do not have a drafting stage prepared, you will forgo the feedback. You may still submit your work for partial credit. You may still visit the writing center for direct feedback, or visit me during office hours and I will answer a few questions regarding the assignment. But, you will not receive the same depth of feedback as will be provided during the peer review.

Participation and Word Count

All assignments unless otherwise noted will have a **350 word minimum word count** requirement.

The Participation Grade is calculated out of 100. The final score considers:

Your Percentage of Attendance

- Classes missed
- Late arrivals

How much late work you submitted

- The total amount of assignments submitted past the deadline

How much work you are missing

- The total amount of "0" you have for assigned work

Your final grade in terms of the total performance to date with the course work and material.

Absence

If you need to miss class take the follow steps and I will excuse your absence:

1. **Email me in advance as to why you are missing class.**
2. **Explain how you will access the work on Canvas**
3. **Set a deadline for when you will complete the work**

Failure to attend class sessions will impact your grade.

Late Work

All late work past the designated **Soft Deadline (Weekly Sunday Deadline)** is accepted and will receive an automatic (-5 point) deduction prior to being graded.

- For each assignment that you submit past Soft Deadline in a later Project, your work will receive an additional (-5). For example, late work from Project 1 will receive (-5) if turned in during Project 1 and (-10) if submitted in Project 2.
- The **Hard Deadline (Final Deadline)** for all later work for the term is December 15th @ 11:59PM. You will be unable to submit work past this point in the term.

Projects

Project 1—Literature Review- Once you have identified your research interests in relation to your Topic and Issue in California you will start researching and annotating Peer Reviewed resources that support your interest in the Topic for one reason or another (it might be the purpose of the study and its findings, the context and/or population studied, the theoretical approach used in the study, etc.). You will be provided with two (2) resources and you will be required to locate two (2) Peer Reviewed resources. The Topics include:

- Anti-Racism/Racism
- Data Science, Algorithms and Artificial Intelligence
- Housing and Cost of Living
- Immigration and Xenophobia
- Climate Change

Project 2—Digital Short- For Project 2 you will pull from your previous essay and assignments to develop a scholarly argument around One (1) or more Stakeholder's view of your Topic within a City, County, or State in the form of a Digital short. The Digital short should pull from your Literature Review. You should reflect on the progression of your research, and look forward to where this research might head next?

- Digital short (Youtube): Academic account, based on student email. You will develop a Digital short that will be posted on YouTube based on the final writing that are posted in your Archive. You are not required to make this public but doing so will earn you 10 extra credit points towards the final assignment. Your Digital short will be developed through the three critical papers. It will be a comprehensive project that communicates your research on this Issue to the audience that you desire.
