REMINDERS AND TASKS

In a Fiscal Year, Expenses for GoCard, ProCard, and recharges cover June to May

FUND BALANCE MANAGEMENT
BRADLEY OLIN & KIM NAPOLI

FUND BALANCE ROLL PROCESS OBJECTIVES

“Decision Support”

Fund Owners make decisions on available equity based on operational need

System financial info easily interpreted

Fund balance universally rolled to fund level

Ease of implementation (weighed against workload considerations)

Process should not generate “bad data”

Transactions to take place only in revenue and expense accounts

Transacting in equity accounts is like running a red light

SAN JOSÉ STATE UNIVERSITY

powering SILICON VALLEY

REMINDER

- Fund Balance (Equity) no longer posts to DeptID*
 - Equity now reported at Fund level.
- Equity is result of revenue/expense/prior year equity
 - No actual or budget transactions against 30xxxx accounts
 - Current practice involves provisional approval from “fund owner” to exceed expenditure budget
- New business process required...we’re working on solutions.

SAN JOSÉ STATE UNIVERSITY

PROPOSALS UNDER ADVISEMENT

Discussions under way about “all funds budgeting” approach

Fund owners = decision makers

We want to implement functional “value-added” processes

Granularity & attention to detail on every potential idea...

Put your thinking caps on!

SAN JOSÉ STATE UNIVERSITY

powering SILICON VALLEY

PROPOSALS UNDER ADVISEMENT

For all Funds...

- One-sided expenditure budgets to utilize all/part of prior year Equity balance
 - Facilitated by Budget & Risk Management Office (BRM)
 - Only expenditures in 60xxxx accounts
 - Budget posts to fund owner, who may choose to distribute in FTS

For Cost Recovery/Enterprise Funds...

- Incorporate prior year Equity balance into Business Planning Procedure
- Incorporate planned equity uses into 1-sided budget upload template
- BRM will verify YE balances/encumbrances & upload template for accuracy
