

Wi-Fi Set Up Guide for Android Devices on eduroam

This guide demonstrates how to configure Android devices for access to the eduroam Wi-Fi network.

First time setup, Samsung Example:

1. Go to the **Settings** app.

2. Select **Connections**.

3. Select **Wi-Fi** (make sure the toggle button is to the right).

4. Select **eduroam**.

5. Enter your SJSU email and password for **Identity** and **Password**.

6. Select CA certificate, and then select the **Don't validate** option.

7. Click **Connect**, and then you should be connected to the eduroam Wi-Fi network.

If you previously connected to eduroam but are now having trouble connecting:
Sometimes the network settings will have cached previous data, so it's best to clear this out.

1. Navigate to Settings >> Wi-Fi.
2. Click the gear icon.

3. Click the trash can icon at the bottom of the screen.

4. Follow the instructions above for “first time setup” to rejoin eduroam.
