Course Description and Requisites

This course will analyze how human beings interact with their environment from both macro and micro sociological perspectives. The course will address a number of other relevant topics, including environmental classism, environmental racism and policy responses to environmental problems.

Prerequisite: Upper Division Standing

Letter Graded

Program Information

Program Learning Outcomes

1. Students will be able to think sociologically about the relationship between social structure, interaction, identities, and inequalities.
2. Students will be able to identify and explain major sociological theories and apply them to everyday life.
3. Students will be proficient in qualitative and quantitative research design, data collection and data analysis.
4. Students will be proficient in oral and written communication skills appropriate to the discipline.
5. Students will be able to practice sociology as educated and civically engaged persons.

Course Learning Outcomes (CLOs)

In this class, we will explore Environmental Sociology. This course will analyze how human beings interact with, shape and are shaped by their environment from both macro and micro perspectives. Material will be based on both qualitative descriptions and quantitative trends of contemporary environmental sociological research.

This course will challenge the human exceptionalism paradigm and will answer the following questions: How do personal issues and environmental problems overlap? Which environmental concerns garner the most attention? Why? What role does environmental activism play in social change? When do environmental bads become a concern for masses of people? How and when do people commit to change for the environment?

Specific attention will be paid to how environmental harms and social change happens. In the process of examining the social construction and social destruction of the environment and status quo related to our thoughts, beliefs and actions related to the environment, the course will address a number of other relevant topics, including: social inequity, environmental classism, environmental racism, eco-feminism, environmental activism, coping with climate crisis, political responses to environmental problems, and consequences of/for environmental policy.

Institutional Outcomes	Student Learning Outcomes	Assessment Method
Critical Thinking	Students will be able to define the core terms and the major theoretical approaches of Environmental Sociology and apply these concepts to various social manifestations.	Class Discussion, Open-ended questions on assignments and reflections
Communication	Students will be able to articulate insights generated from core terms and major theoretical approaches and discuss how these concepts inform the study of present day Environmental Sociology.	Class discussion, assignments and reflections
Evaluate Empirical Sociological Research	Students will read and evaluate empirical sociological research related to sustainability, environmental justice and climate destabilization.	Class discussion, assignments and reflections
Valuing Diversity and Global Awareness	Students will understand how identities such as race, class, gender, age, sexual orientation, religion, and nationality contribute to a range of social experiences and social perspectives regarding Environmental Sociology.	Class discussion, Group work (including group assignments)

Self-Awareness	Students will be able to discuss their interpretation of Environmental Sociology as it relates to their lived experiences by evaluating the impact their structural position has on their lives, as well as the lives of others.	Class discussion, assignments and reflections
----------------	--	---

☰ Course Requirements and Assignments

Reading. I expect all of the material to be read with a critical eye. Give yourself adequate time after each reading to reflect on the author’s central argument(s) and take notes.

Dialoguing. I expect you to show up to the class meetings prepared to discuss course material.

Participation. Active participation in class discussion and classroom activities is expected.

Assignments. There will be both in-class and outside of class assignments, sometimes more than one per module throughout the semester.

Quizzes. There may be quizzes assigned throughout the semester.

Facilitation. Please expect to facilitate an informed conversation amongst your peers.

✓ Grading Information

A total of 350 points is possible for this course.

Participation in Class Dialogue and Discursive Space	40 pts total
Dialogue Facilitation	25 pts total
In-class activities, HWs, quizzes, etc.	250 pts. total
Final Project	35 pts.

TOTAL	350 pts.
-------	----------

Criteria

Grades will be calculated as follows:

331 - 350+ = A
315 - 330 = A-
303 - 314 = B +
293 - 302 = B
280 - 292 = B -
268 - 279 = C +
258 - 267 = C
245 - 257 = C -
233 - 244 = D +
223 - 232 = D
209 - 222 = D -
000 - 208 = F

Type	Weight	Topic	Notes

Per [University Policy S16-9 \(PDF\)](http://www.sjsu.edu/senate/docs/S16-9.pdf) (<http://www.sjsu.edu/senate/docs/S16-9.pdf>), relevant university policy concerning all courses, such as student responsibilities, academic integrity, accommodations, dropping and adding, consent for recording of class, etc. and available student services (e.g. learning assistance, counseling, and other resources) are listed on the [Syllabus Information](https://www.sjsu.edu/curriculum/courses/syllabus-info.php) (<https://www.sjsu.edu/curriculum/courses/syllabus-info.php>) web page. Make sure to visit this page to review and be aware of these university policies and resources.

Course Schedule

"Unless we change the direction we are headed, we might wind up where we are going."

-Chinese Proverb

Below is the course outline. This schedule is subject to change with fair notice. Reading should be completed by the class lecture date.

Date(s)	Topics and course content. Links to readings and media are on Canvas	Reminders
MODULE 1 COURSE BASICS Aug 21 st	Course Basics In-class Assignment: Environmental Sociology Introductions and NameCoach Upload your name pronunciation to NameCoach	Check on Canvas for information about course

Date(s)	Topics and course content. Links to readings and media are on Canvas	Reminders
MODULE 2	<p>Introduction to Environmental Sociology:</p> <ul style="list-style-type: none"> · What do we mean when we say the environment? · What is Environmental Sociology? <p>Review Learning Page: Introduction to Environmental Sociology</p> <p>Readings include "Environmental Sociology: From Analysis to Action" Hypothesis Available and "Nature's Trust"</p> <p>Activity: Tree Sitting and Forest Bathing</p> <p>In-Class Assignment: Reflections on Module 2</p>
